

Kanzan

Breed name	K a n z a n _ _ _
scientific name	<i>Cerasus serrata 'Kanzan'</i>

 tree shape	cup shape	 Tree height	Takagi	 flower shape	Yaezaki
flower size	middle wheel	flower color	Pale red	flowering period	early April

This variety was cultivated in Arakawazutsumi, Kohoku-mura, Tokyo (now Adachi-ku, Tokyo). The flower color is deep red and beautiful, and it grows well, so it is widely cultivated overseas. In addition, salt pickles of this flower are often used in sakurayu, which is served at celebrations.
